

Sustainability Meeting Agenda  
April 4, 2024

Meeting will take place in the craft room at Hergenhan Center at 10am. Our committee is open to afternoon or evening time, if requested. Virtual option is also available by emailing [sustainability@northcastleny.com](mailto:sustainability@northcastleny.com).

This month is Earth month and we will be acknowledging it in our town with the annual Town Wide Clean Up on Saturday, April 20<sup>th</sup>. A flier with details has been created and is being distributed locally. Part of the agenda will be completing any steps required to be ready for this event.

Secondly, John Ettenson would like to revisit the topic of limiting gas powered leaf blowers in North Castle.

There will likely be an update on the food scrap collection progress as well. Kits will be sold during the TWCD event.

Regards,  
Stefanie Rosenzweig  
Committee member
